

INTEGRATED TECHNOLOGIES, INC.

ProWall™ Engineered Aircraft Container Systems

ProWall™ containers take advantage of the material performance and container geometry.

The structures are designed to be globally stiff but locally compliant to protect the container and it's contents from damage.

ULD Aircraft containers are FAA & ATA approved

These highly damage tolerant aircraft containers are light weight with minimal servicing required

ULD-LD3-AKE Aircraft Cargo Container

Intec's ULD (Unit Load Device) container systems are designed to perform over a wide range of requirements and environments.

The ProWall ULD-LD3 fits 787's, 777's, 747's, MD11's, L1011's and all Airbus wide bodies.

ULD's are designed using ProWall™ an advanced lightweight thermoplastic structural material system that can be formed into a continuous shell.

Other Aircraft & Container sizes are available, please call for information.
